Phone: (800) 387-3636
Fax: (800) 364-3209

Get Medi provides a suite of digital tools to simplify healthcare and increase profits. We offer digital mental health assessments, over 300 genetic labs, e-prescribing software, tamper-resistant prescription pad, medical business loans and more! GetMediScripts has been the number one provider of prescription pads for 35 years, helping hundreds of thousands of medical practitioners prescribe simply and securely. Tamper-resistant and personalized to meet individual practice needs, MediScripts helps practitioners work smart. Tamper-resistant and personalized to meet individual practice needs, MediScripts helps practitioners work smart. GetMediLabs make it easy to search and compare every lab, test, and diagnostic panel available on the market. Get only the best value for you and your patients. Search and compare to learn the differences between labs and tests, and choose the one that really works for you and your patients. See what insurance labs accept and how much tests cost, to increase patient access to important diagnostics. Free to sign up and use, so set up your own account or get your staff their own access. Our digital assessments allow you to monitor your patients' mental health, and help to determine underlying psychological causes that may be keeping patients from adhering to their treatment plans. MediAssessments are accessible from any web-enabled device and are completed on our secure web portal. You can screen patients in the exam room, the waiting room or before they arrive at the

office by delivering assessments to the device in their pockets. GetMedi's eRX e-prescribing platform allows you to prescribe the way you prefer, anytime, anywhere, any device. Get all access to both digital and paper prescribing from Mediscripts.
