

The Fitzpatrick Company

832 Industrial Dr.
United States 60126
NORTH AMERICA

Phone: 16305303333

The Fitzpatrick Company has been one of technological evolution in the design and manufacture of size reduction, roll compaction, pre-breaking and other process systems. They provide proven, high-performance solids processing equipment for a wide range of products in pharmaceuticals. They actively seek opportunities to work with customers and other partners to develop solutions to processing problems, helping to make the impossible, possible.
