BidMed is a leader in the healthcare asset disposition industry, specializing in the buying and selling of pre-owned medical equipment. Powered by innovative technology and proprietary data, BidMed's services include medical asset valuations, inventory reconciliations, and liquidations. BidMed liquidates U.S. and Canadian healthcare facilities due to relocations, expansions, and closures, providing complete on-site project management to ensure clients recover the highest value for all medical assets. BidMed is headquartered in Chicago, IL and has worked with over 250 clients, including hospitals, surgery centers, transition/equipment planning companies, financial lending institutions, and equipment manufacturers. With over 20 years' experience in the asset disposition industry, BidMed provides current fair-market values on pre-owned medical assets using a progressive, in-house data analytics tool. In addition, BidMed utilizes a custom web-based inventory system, auction platform, and supporting mobile app, enabling clients to accurately inventory, reconcile, and sell assets with ease and efficiency.
